

Second Level Additional Activities - Cross Curricular Home Learning

Write down the Pros and Cons of using the internet.	Write a script for an episode of your favourite TV programme. Think of one character and what they might do in the episode.	Take turns with someone naming words that have 'ight' in them. The winner will be the one who names the longest 'ight' word.	Make as many maths problems as you can that have 864 for an answer.	Go on a "recycling" scavenger hunt. Find 5 items in your home that could be re-used and made into some other useful product.
Design a shelter for 'Stray or Lost Dogs'. Use recyclable material from home and make a model of your design.	Research your favourite sports person. Write down 5 interesting facts about them.	Design a new Shop Sign for a local business.	Write an acrostic poem with the word CELEBRATION.	Estimate how many times you can count backward from 100 in 5s in one minute. Try it!
Make a poster that will display three ways you can help to protect the planet.	Go on a "materials" scavenger hunt. Find 3 things in your home that are made of cotton, plastic and wood.	Create a new burger with your favourite toppings. Make a flyer to advertise this new burger, give it a name.	Put 20 objects on a table. Close your eyes and ask someone to take away one object. What is missing?	Take a poll. Find out the favourite food of each family member. Display your results in a bar graph.
Wash and dry the dishes.	Tidy your bedroom.	Write a book review about a book we have read in school.	You have £1000 to spend. You have to spend it in a way that supports your local community. What would you spend it on?	Design a new book blurb for your favourite book.
Look inside your kitchen cupboard or fridge/freezer. Find out which product has the highest fat content by looking at the package label.	Create a new playground game. Write down the rules for this game.	Find out how many days there are in May. Which day does the 12 th fall on? Which day would it have fallen on 10 years ago.	Write a news report about a recent news story.	Gather 10 household objects. Sort them according to how much you think they cost. Research the cost and see if you are correct.
