

Our Lady of Peace Primary School  
Digital Learning Strategy 2018

# Our Lady of Peace Primary – Digital Learning Strategy

## Background

The Scottish Government recently launched a digital learning and teaching strategy for Scotland, Enhancing Learning and Teaching through the use of Digital Technology. Glasgow City Council's response has three work-streams:

Digital Leadership and Culture, Digital Services and Digital Foundations.

Glasgow Education's '*Transforming Glasgow*' is their responsive digital learning strategy. It states:

"Glasgow will be the best place in the world to teach and learn."

It is aligned with the national strategy with its education aims and priorities:

- Raising attainment and achievement
- Enhancing the leadership of staff
- Supporting families to be better able to support their children's learning and development
- Make best use of resources

## Our Vision

Our school will therefore play its part in these strategies by empowering Glasgow's young people to be Confident Individuals, Successful Learners, Responsible Citizens and Effective Contributors in a digital world, enabling and enhancing digital communication, collaboration and creation across all areas of learning.

All teachers, staff, learners and parents will take full advantage of the opportunities offered by digital technology in order to raise attainment, ambition and opportunities for all.

## Our Aims

The school will ensure a curriculum that prepares our **children and young people** for the social and economic impact of technology, supporting them as they develop the social, emotional and cognitive abilities that enable individuals to face the challenges and adapt to the demands of the digital world: Digital Identity, Digital Use, Digital Safety, Digital Security, Digital Emotional Intelligence, Digital Communication, Digital Literacy and Digital Rights.

**Staff** through their GTC Professional Standards will demonstrate a critical understanding of digital technologies and how these can be used to support learning - through self-evaluation and professional learning, staff will have increased confidence in the use of digital technology.

We will ensure that access **for parents and carers** to information on children and young people's progress will improve through digital technology. Engagement, collaboration and communication with parents and carers will improve, as will support for them in improving children and young people's digital literacy and understanding of e-safety.

## Actions in our establishment of Our Lady Of Peace Primary School

<p><b>Digital Leadership and Culture</b></p> <p>Digital learning embedded in SIP 2018/19</p> <p>Digital learning forms part of PRD/PDP</p> <p>Digital Leader of Learning</p> <p>Staff - elements, key areas, core values and professional actions of digital learning within the GTC Standards</p> <p>Student Digital Leaders</p> <p>Registration with Digital Schools Awards Programme</p> <p>Engagement with parents as part of school improvement process</p> <p>Identify professional learning needs of staff</p> <p>Host and or attend Open Doors,</p> <p>Teach meets</p> <p>Engage with children and young people as part of the improvement process</p>	<p><b>Digital Services</b></p> <p>Provide professional learning support for digital learning:</p> <ul style="list-style-type: none"> <li>• in the classroom</li> <li>• outside of the classroom</li> <li>• utilising the school's Digital Learning suite* for learning and training</li> <li>• for collaboration within and across schools</li> <li>• for communication</li> <li>• for creation</li> </ul> <p>Digital learning to enhance learning and teaching across all curriculum areas and supporting Glasgow's Improvement Challenge, moderation and assessment.</p> <p>*Programme of classes for P1-7 for developing technology - digital learning curriculum experiences:</p> <ul style="list-style-type: none"> <li>• computing science</li> <li>• digital literacy</li> <li>• digital graphics and media skills,</li> </ul> <p>*Training/support for staff for parents and carers</p> <p>Development of the school website with child, parent/carers and staff sections for digital support.</p>
<p><b>Digital Foundations</b></p> <p>Work with GCC, CGI and XMA to ensure Connected Learning Glasgow Programme is established, which will:</p> <ul style="list-style-type: none"> <li>• Provide Schools with Wifi</li> <li>• Provide iPads for all teachers</li> <li>• Provide AV equipment in all classrooms/playrooms to develop interaction</li> <li>• Provide iPads ratio 1:5 early years to P5 and ratio 1:1 for P6-7</li> <li>• Provide optimised IT asset management</li> </ul> <p>Consolidate use of current iPads merging their use into an extension of the above foundations.</p> <p>Create a common portfolio and provision of appropriate apps for learning and teaching, with a support in moderation and assessment. Ensure digital foundation provided for the establishment is used effectively to enhance learning.</p> <p>Ensure all staff, children/young people and parents have a clear understanding of the responsible use of all equipment provided.</p> <p>Glow – development and increased use.</p> <p>School website <a href="http://www.olop.co.uk">www.olop.co.uk</a></p>	<p><b>Staff Development</b></p> <p>CPD opportunities to ensure confidence in:</p> <p>Knowledge of documents:</p> <ul style="list-style-type: none"> <li>• Technologies Benchmarks.
