

Facts — on — flu

Fact: Flu is serious – it can be life threatening.

Fact: Even healthy children can become seriously ill from flu.

Fact: Your child can't get flu from the vaccine.

Trust the facts. **Get the vaccine.**

Help protect your child from flu.

NHS Scotland recommends primary school children get the flu vaccine every year. It's given as a painless nasal spray at school. The vaccine is the best way to protect your child against flu.

**Look out for the flu consent form
in your child's school bag.**
